FEATHER

PROFESSIONAL USE

Product catalog for barbers and hairdressers
Founded in 1932, Feather was the first Japanese corporation to manufacture razors. We carry out thorough management of the process spanning from production to shipping at our own factories in Japan. In this way, we are continually dedicated to offering quality products that could only be made in Japan. Our precision sharpening technologies have earned us absolute trust not only in the field of razors, but also professional fields such as medical care, haircutting and beauty. At FEATHER we have never compromised our quality, even slightly, in any era. We will continue offering products with new value that have never before been manufactured in Japan.
 Feather professional shaving razors, Artist Club series, are the most advanced barber and beauty razors in the world, designed for the needs and tastes of professional barbers. Available in two models with different features in response to professionals' preference and techniques.

**DX**

Feather Artist Club DX is the flagship model dedicated to material and manufacturing formula.

Hand-finished concave shape designed for the shaving experience of traditional concave razor.

High-grade materials are used for razor body and handles for high durability as well as heat and chemical resistance.

- Razor body: SUS316 stainless steel
- Handle: Super engineering resin (ACD-R)
- Elastomer resin (ACD-N)

Feather professional shaving razors, Artist Club series, are the most advanced barber and beauty razors in the world, designed for the needs and tastes of professional barbers. Available in two models with different features in response to professionals' preference and techniques.
Artistic Club SS razor is developed for more comfortable and smoother shaving feeling.

Rounded tip disperse the pressure on the blade contacting to the skin.

High-grade materials are used for razor body and handles for high durability as well as heat and chemical resistance.

- Razor body: Stainless steel
- Handle: Super engineering resin (Razor type except ACS-RSW)
- Silicone resin (Japanese razor type)

Rounded handle of Japanese razor type makes handling in detailed use easier.

 Blades feel very soft on the skin from the beginning.
-
- Smoother shaving makes barber’s total work smoother, too.
- Shape and weight are very well balanced so that small handed barbers can use SS razor easily.

The perfect balance of rounded tip and moderate blade exposure.

ULTIMATE SMOOTHNESS

The key of ultimate smooth feeling is...

- Blades feel very soft on the skin from the beginning.
- Smoother shaving makes barber’s total work smoother, too.
- Shape and weight are very well balanced so that small handed barbers can use SS razor easily.

Rounded handle of Japanese razor type makes handling in detailed use easier.
**New-Generation of Soft Shaving**

Wavy guards on both sides of the blade reduce cutting resistance and ease pressure on skin.

- **Thickness**: 0.25mm
- **Blade thickness**: 0.15mm, **Guard thickness**: 0.1mm
- **Blade exposure (Distance to blade edge)**: DX | 1.2mm, SS | 1.0mm

### Professional Soft Guard
- 15 blades contained
- Product No. PSF-15

### Professional Blade
- 20 blades contained
- Product No. PB-20

### Professional Light Blade

Feather is a leading manufacturer in razor haircutting technology. Feather offers a complete line of hair-cutting razors that have exceptional balance and feel with high-level safety. Feather Styling Razor, which is favorite haircutting razor for hairdressers across the world, is available in many types to meet the hairdressers' preference and techniques.
Short handle type
Styling Razor S / Length 158mm

Silver
Product No. SRS-S

Orange
Product No. SRS-R

Black
Product No. SRS-K

Yellow
Product No. SRS-Y

Styling Razor W
Offset design for easy cutting
Elastomer resin offers soft grip feeling
Two different blades can be attached on both sides of one razor handle. This enables a quick razor cut with dual techniques.
Product No. SR-WD Length 186mm

Safe and easy blade insertion

Styling Razor Flex Handle
“Shape-memory polymer”, which becomes soft in hot water and hard in cold water, enables stylists to make handles one-off-only shape.

Product No. SRF-PW Length 187mm
Styling Blade

Styling Blade "Regular Type EX"
10 blades contained
Product No. CGEX-10
Blade thickness: 0.254mm
Comb guard thickness: 0.3mm

Styling Blade "WG Type"
10 blades contained
Product No. WG-10
Blade thickness: 0.254mm
Comb guard thickness: 0.3mm

Styling Blade "Thinning Type"
10 blades contained
Product No. TG-10
Blade thickness: 0.254mm
Comb guard thickness: 0.3mm

Compared to "Regular type", the blade guard of "Thinning type" has two extra notches and less area of blade exposure so it can be used to control volume and create texture.

By razor cutting, hair tip is cut finely with less damage.

By razors, cutting, hair tip is cut finely with less damage.
Nape Razor

Nape razor is a small light weight razor that is designed for shaving of the nape area of the neck. The blade has a guard around the blade to prevent skin cuts but does not interfere with the shave.

Prebeau Razor

Prebeau razor is developed for women’s delicate skin. The handle and blade are specifically designed for safe and close shaving. The blade has a semicircular guard to prevent skin cuts and grips the thin downy hair securely giving a smooth and clean shave.
Nape Blade

Nape Blade
10 blades contained
Product No. NP-10
Thickness: 0.27mm
(Blade thickness: 0.15mm, Guard thickness: 0.06mm)

Prebeau Blade

Prebeau Blade
10 blades contained
Product No. LPB-10
Thickness: 0.35mm
(Blade thickness: 0.15mm, Guard thickness: 0.1mm)

The semicircular guard softly presses the skin, and grips thin downy hair securely.

Semicircular guard made of stainless steel

Stainless steel blade
Switch-blade shears

You no longer need to carry different pairs of shears. Feather Switch Blade replacing system guarantees a sharp blade. Always sharp, never dull is a feature no other shears can offer. No more down time for sharpening or dissatisfied sharpening service.
Feather Switch-Blade Shears have 7 types in length and shape, and are available with convenient replaceable blades.
