

FEATHER®

PROFESSIONAL PUSE

Product catalog for barbers and hairdressers

CUTTING-EDGE TECHNOLOGY SHARPENED IN JAPAN

Founded in 1932, Feather was the first Japanese corporation to manufacture razors.

We carry out thorough management of the process spanning from production to shipping at our own factories in Japan.

In this way, we are continually dedicated to offering quality products that could only be made in Japan.

Our precision sharpening technologies have earned us absolute trust not only in the field of razors, but also professional fields such as medical care, haircutting and beauty.

At FEATHER we have never compromised our quality, even slightly, in any era.

We will continue offering products with new value that have never before been manufactured in Japan.

FEATHER® PROFESSIONAL *Artist Club*

Feather professional shaving razors, Artist Club series, are the most advanced barber and beauty razors in the world, designed for the needs and tastes of professional barbers. Available in three models with different features in response to professionals' preference and techniques.

SR Super-Razor

The Super-Razor offers a new sensation in shaving.

The weight of the Razor is enough to shave. Specifically designed with an excellent weight balance that allows the effortless shaving of even thick beards.
Razor body: SUS316 stainless steel
Handle: Super engineering resin (Razor type)
Silicone resin (Japanese Razor type)

Customer feedback

Powerful strokes enable me to easily shave a thick beard.

Ideal balance between blade and handle.

Excellent grip on the Japanese Razor.
No matter how you hold it, it never slips.

FEATHER® **PROFESSIONAL** *Artist Club*

SS

Artist Club SS was developed to offer more comfortable and smoother shaving.

Rounded tip disperse the pressure on the blade contacting to the skin. High-grade materials are used for razor body and handles for high durability as well as heat and chemical resistance.
Razor body: Stainless steel
Handle: Super engineering resin
(Razor type except ACS-RSW)
Silicone resin
(Japanese Razor type)

ULTIMATE SMOOTHNESS

The key of ultimate smooth feeling is...

The perfect balance of rounded tip and moderate blade exposure.

Image

Blades feel very soft on the skin from the beginning. Smoother shaving makes barber's total work smoother, too. Shape and weight are very well balanced so that small handed barbers can use SS razor easily.

Blade thickness: 0.31mm

Blade exposure

Dx	1.45mm
SR/SS	1.25mm

Super Blade

20 blades contained

Product No. **PS-20**

Small blade exposure prevents blade edge from shaving closer, which delivers light feeling.

Blade thickness: 0.254mm

Blade exposure

Dx	0.6mm
SR/SS	0.4mm

Light Blade

20 blades contained

Product No. **PL-20**

Blade exposure

Distance to blade edge when the blade is attached to Artist Club razors.

Each blade features triple grinding for the optimal edge angle. In addition to the sharpness, each blade also features a double coating (platinum alloy and resin) for extra strength and durability.

PROFESSIONAL **F**SYSTEM Razor Series

Professional F System is a cartridge razor system exclusively designed for professional barbers.
Available in two types, Angle-adjustable type and Short handle T type "Butler".

PROFESSIONAL **F**SYSTEM

Angle-adjustable
type

Using a cartridge blade in combination with a straight razor handle makes shaving more efficient and offers high-class relaxation experience.

Angle-adjustable head

Innovative cartridge head enables a wide variety of usage, including as regular "T-shaped" razors and for reverse backhand strokes.

Cartridge position is adjustable.
Rotate the cartridge while pressing the adjustment button.
